

Allowable Subject Matter

1. Claims 5-7 and 9-11 allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 5 and 9 recite methods for preparing a microarray having a hydrophobic barrier comprised of the steps of selecting the probe set, synthesizing the probe sets on a slide using the light-directed maskless array synthesizer to provide the plurality of subarrays and depositing hydrophobic phosphoramidite groups between the subarrays to provide a barrier around each subarray using the same light-directed maskless array synthesizer.

Butler teaches use of a maskless light directing device in selecting a probe set, synthesizing the probe sets on a slide to provide the plurality of subarrays and depositing hydrophobic phosphoramidite groups between the subarrays to provide a barrier around each subarray. Butler does not teach using the light directed maskless array device to synthesize the array as in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
